drives

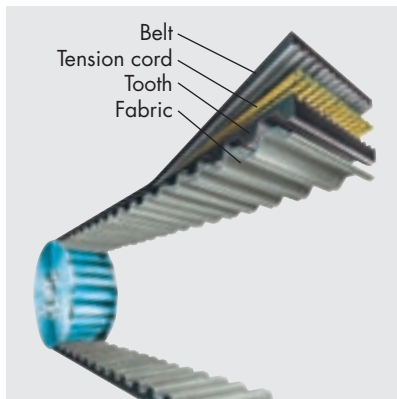

Timing belts

optibelt **OMEGA HP**

KARTPOWER

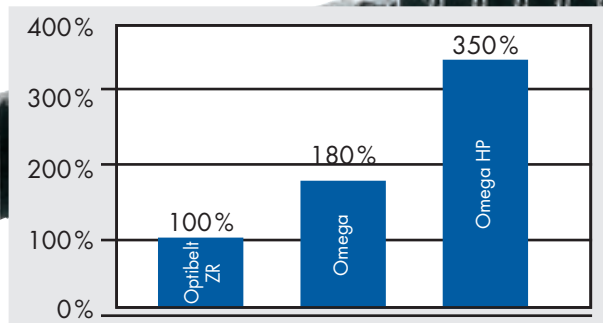

Belt construction

Advantages

Optibelt Omega HP timing belts have been specially developed for high powered, fast running drives. Improved materials such as rubber compound filled with aramide fibres and an extremely wear-resistant fabric with exceedingly low friction coefficients and a temperature stability of -30 to $+100$ °C, make this timing belt the first choice and not just for karting.

Performance comparison

Profiles:

5M, 8 M, 14 M

Lengths:

265 bis 2800 mm

Top

dimensions:

720 8M-HP 30

840 8M-HP 30

880 8M-HP 30
